

PRODUCT INFORMATION SHEET

BIKERIGHT MOTORBIKE QUICK WAX BIRIMB4004

1. Introduction

A detailing wax polish based upon a blend of naturally occurring waxes with silicone polymer. Contains both Carnauba and Bees Waxes for optimum durability and shine.

2. Where to use

On any painted or metallic surface to improve gloss and provide a water-resistant barrier. Also suitable for use on Chrome and plastic trim.

3. Where not to use

- On any area where increased slip would create hazards, i.e. Tyres, brake pads etc.

4 Benefits

- Contains Carnauba Wax for durability and shine – nature's hardest wax.
- Contains Bees Wax for improved shine and easy spreading.
- High gloss finish.
- Non-abrasive.
- Easy spray on / wipe off application, minimal effort required.
- Highly water resistant.

5. Physical properties

Appearance	An off-white creamy liquid
pH	7 – 9
Specific Gravity [Base]	0.936 – 0.966 @ 20°C
Flammability, as supplied	Extremely flammable, flash point below -20°C.
Composition Data, as supplied	An aqueous emulsion of Carnauba wax, Bees wax and silicone polymer with low aromatic white spirit and mixed butane/isobutane/propane propellant.
Service Temperature [Continuous]	Designed for use at ambient temperatures.

6. Application Details

Ensure surface is clean and dry. Shake can thoroughly before use. Hold upright and spray from a distance of 20-30cm. Allow to dry and haze before buffing to a high shine with a soft clean cloth.

Do not apply to hot surfaces as this can cause the polish to dry too quickly and lead to smearing / streaking.
